

To Whom It May Concern,

Please do not take away XM radio's right to broadcast the weather and traffic reports. I have found it very helpful when travelling to another state. An example was last fall on a trip to Cleveland I was able to find out what the weather was like considering that the hurricane was moving towards that area. I was able to find out that the storm had cleared to city just shortly before I arrived and that I did not have to worry about any detours by the time I arrived.

Sincerely,  
Sherry
